

Instructions for:

# ZOIDS® GIANT ZRK™

**TOMY®**

No. 5039

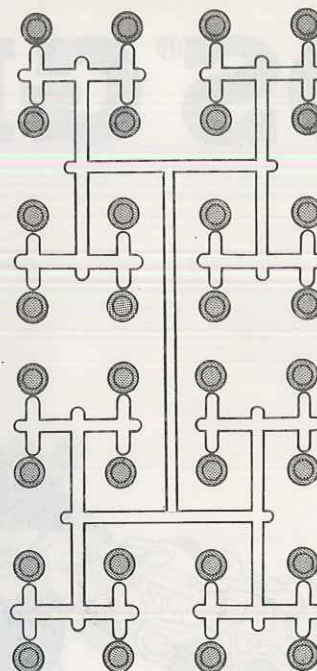

## INSTRUCTIONS

Before cutting parts off frame, match each part number (located on small tabs on the frame) with the corresponding number in each assembly diagram. Be sure to study the diagrams carefully.

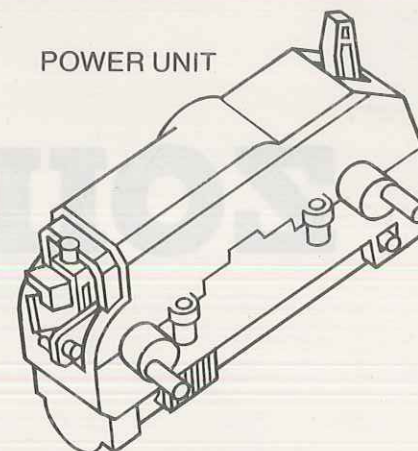

Starting with Step 1, use your safety scissors to cut parts 1 and 2 off the frame. As you go along, cut only those parts you will need for each step. Remove excess plastic where parts were cut from frame.

Assemble your Zoids Giant Zrk part by part. Some parts snap together and others are held together by rubber caps. Glue is not required.

**APPLY LABELS.**

## COCKPIT LABELS

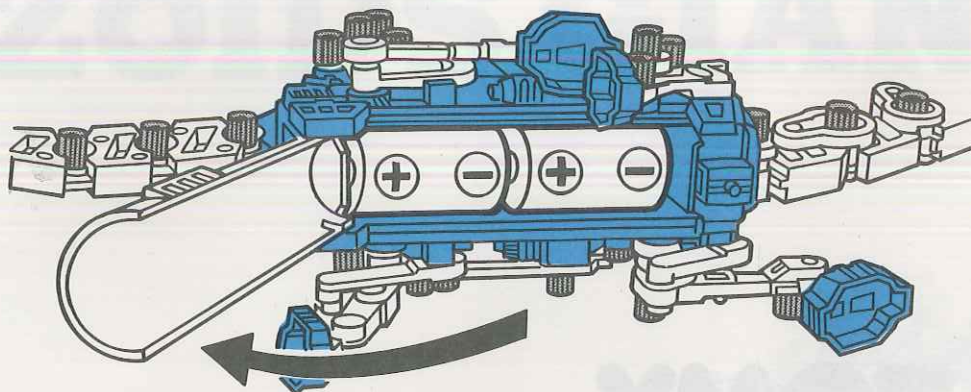

Labels can be positioned anywhere you wish. Just peel them off the label sheet and apply to your Zoids Giant Zrk.

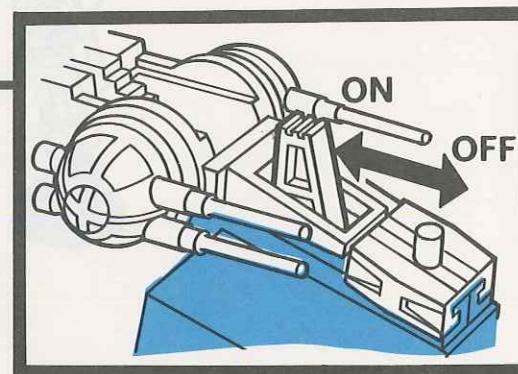

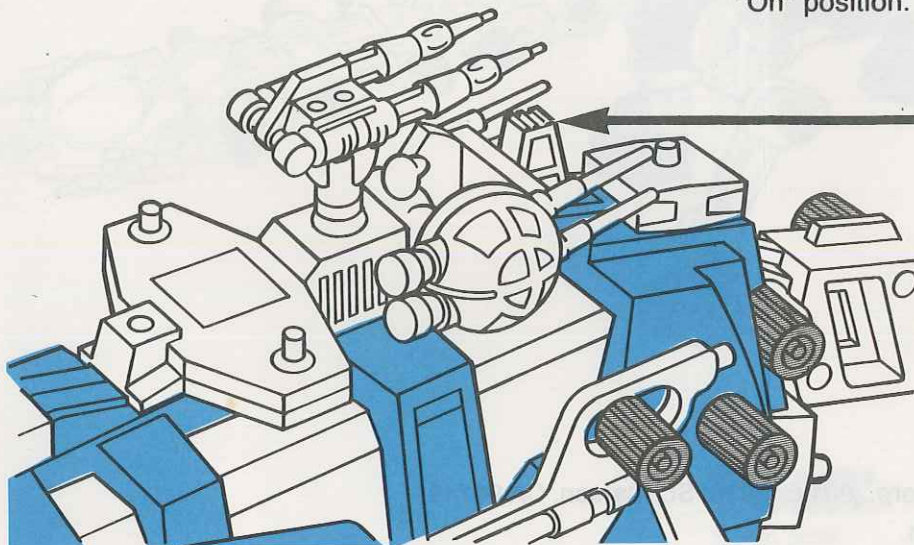

34

Slide back battery cover on underside of body and lift up. Insert two "C" size batteries as shown. Batteries not included.

35

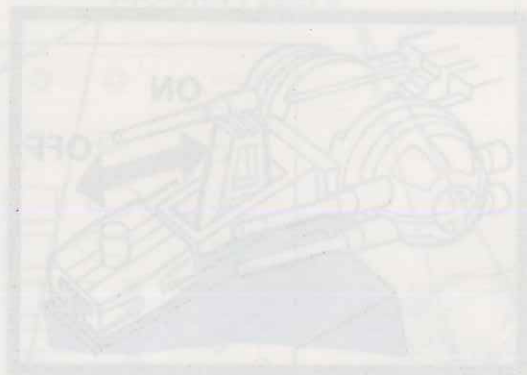

To turn on your Zoids Giant Zrk, move lever on top rear section of body to the "On" position.

# TOMY®

No. 5039

Labels can be positioned anywhere you  
want them on the label sheet and on  
your Zoids Giant Zrk.
